CE/CME Disclosures and Statements

Disclosure of Financial Relationships:

The following planners, moderators or speakers have the following financial relationship(s) with commercial interests to disclose:

Christian Bergman, MD – none; Dan Bluestein, MD – none; Joanne Coleman, FNP-none; Laura Finch, GNP - none;
Tara Rouse, MA, CPHQ, CPXP, BCPA – none; Sharon Sheets-none;

Accreditation Statement:

In support of improving patient care, VCU Health Continuing Education is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation:

VCU Health Continuing Education designates this live activity for a maximum of 1.50 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

VCU Health Continuing Education designates this activity for a maximum of 1.50 ANCC contact hour. Nurses should claim only the credit commensurate with the extent of their participation in the activity.

VCU Health Continuing Education awards 1.50 hours of participation (equivalent to AMA PRA Category 1 Credits™) to each non-physician participant who successfully completes this educational activity.

Solving

Agenda

- Weekly updates
 - Virginia COVID-19 Stats
 - Guidance/Regulatory Updates
 - From the Literature
- Revisiting concerns raised last week
- Featured topics of the day
- Open Discussion
 - COVID-19 Active Issues
 - QI Content, more in-depth conversation
 - Questions for Group Discussion

Learning Objectives

1. Understand the importance of leadership rounds.
2. Demonstrate communication strategies for effective leadership rounds.
3. Link leadership rounds with quality assurance and performance improvement.

Increased Interseasonal Respiratory Syncytial Virus (RSV) Activity in Parts of the Southern United States

Distributed via the CDC Health Alert Network
June 10, 2021, 1:30 PM ET
CDCHAN-00443

Summary

The Centers for Disease Control and Prevention (CDC) is issuing this health advisory to notify clinicians and caregivers about increased interseasonal respiratory syncytial virus (RSV) activity across parts of the Southern United States. Due to this increased activity, CDC encourages broader testing for RSV among patients presenting with acute respiratory illness who test negative for SARS-CoV-2, the virus that causes COVID-19. RSV can be associated with severe disease in young children.

SARS-CoV-2 Positivity and Mask Utilization Among Health Care Workers

Aldon Li, MD; Jeff Slezak, MS; Ana Miranda Maldonado, MD; June Concepcion, RN; Catherine Voloso Maier, RN; Gunter Rieg, MD

[https://jamanetwork.com/journals/jamanetworkopen/fullarticle/278121](https://jamanetwork.com/journals/jamanetworkopen/fullarticle/2781219)

[9](https://jamanetwork.com/journals/jamanetworkopen/fullarticle/2781219)

6-22-2021

Rationale & Methods

For your staff with PPE fatigue

- Identified healthcare workers tested for COVID exposures
- Surveyed for mask use and type of mask
- Compared rates of COVID infection

Results & Conclusions

1414 HCW

302 used N95

285 negative (94.4%)

17 positive (5.6%)

724 Medical masks

687 negative (94.9%)

37 positive (5.1%)

388 No Mask

347 negative (89.4%)

41 positive (10.6%)

Twice as likely to get COVID if don't use mask

N95 & medical very comparable efficacy
N95 not “better” because of aerosols

Strengths-large study

Limits-survey data (many biases),
retrospective study

Follow-up from last week

Guidance regarding staff who have travelled in US or internationally

From the CDC, 6-10-21:

Domestic Travel:

<https://www.cdc.gov/coronavirus/2019-ncov/travelers/travel-during-covid19.html#print>

International Travel:

<https://www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel-during-covid19.html#print>

CORONAVIRUS DISEASE 2019 (COVID-19)

Domestic Travel

RECOMMENDATIONS AND REQUIREMENTS

Not Vaccinated

Fully Vaccinated

Get tested 1-3 days before travel

Get tested 3-5 days after travel and self-quarantine for 7 days. Self-quarantine for 10 days if you don't get tested.

Self-monitor for symptoms

Wear a mask and take other precautions during travel

cdc.gov/coronavirus

International Travel

RECOMMENDATIONS AND REQUIREMENTS

Not Vaccinated

Fully Vaccinated

Get tested 1-3 days before traveling out of the US

Mandatory test required before flying to US

Get tested 3-5 days after travel

Self-quarantine after travel for 7 days with a negative test or 10 days without test

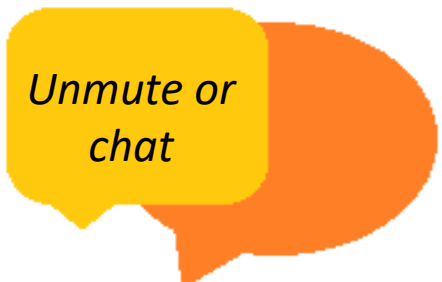

Self-monitor for symptoms

Wear a mask and take other precautions during travel

Leadership Rounds

Slides courtesy of LeadingAGE Minnesota

Does this sound familiar?

- You are investigating a safety event and you find that no one is really following the policy because it really doesn't work for them.

What can you do as a leader to provide an environment where staff feel safe to speak up to address the issue?

Enter Senior Leadership Rounding

Leadership rounds 101

MUST HAVES

1. Who: Senior Leaders – no delegation! All departments; All shifts
2. Where: Workspaces
3. Decide When, how often:
4. What & how:
 - Greetings
 - Open-ended questions
 - Listen & answer
 - Ensure follow-up
 - Express appreciation

DON'T

NO TEAMS – Do not conduct leadership rounds in teams; go individually.

Different from

Huddles

Town Halls

Rounds with a specific focus
(example environmental/safety
rounds, phase 1 session 4)

LEADERSHIP ROUNDING

A Strategy for Safe Care

LeadingAge Minnesota
Annual Meeting & Leadership Forum
September 19, 2019
2:45 – 3:45 p.m.

Respect | Safety | Dignity | Quality of Life

Discussion Question 1

What do you see as the most important reasons for conducting leadership rounds?

*Unmute or
chat*

Why Start with Senior Leadership Rounding?

Foster a culture of safety
For patients
For staff

Recognize & reinforce
accomplishments
Listen & Learn
See and be Seen
Promote trust
Support & empower staff
Build relationships

More “Why”

APPROACHABILITY

“You need to create a safe environment for people to speak up or you’re not going to know what’s going on.” Alan Mulally, CEO, Ford Motor Company

Even RedSox fans can appreciate this:

“You can observe a lot just by watching.” Yogi Berra

BUILDING TRUST

“When I walk through the hospital, it is a great opportunity to gather information and build trust by listening and responding to concerns. Rounding takes me beyond the paper dashboard so I can get a true pulse on the health of the organization.”
Mike Sherrod, CEO, Coliseum Northside Hospital

It's about proactively identifying and addressing obstacles to staff performance.

It's about reinforcing positive behaviors through recognition.

“What gets recognized gets repeated; what gets celebrated becomes habit”

Feedback (From 1-minute preceptor)

- Defined: Use of information about previous performance to promote performance improvement.
- Avoid:
 - Minimal/nonspecific: “Good job”/”bad job”; no explanation
 - Hierarchical: Supervisor-up/ employee down, directive process

Preferably Interactive based on staff self-evaluation with discussion based on same: Facilitative, enhance learning, not punitive:

1. Ask the staff member to articulate his/her understanding of what he/she is being asked to do.;
2. Probe for staffer’s knowledge of procedures & reasoning for what was done or not done.
3. Reinforce what was done well—provide positive feedback; but
4. Correct errors—provide constructive feedback with measurable, agreed recommendations for improvement.

Salero et al. J Gen IM 2002; 17:779-87.
Furney et al .J Gen IM 2001; 16:620-4

Discussion Question 2

How do you engage and empower staff during leadership rounds?

*Unmute or
chat*

Engaging and Empowering Staff

Know Me. Respect Me. Recognize The Work I Do.

- Share why Leadership Rounding is important to you, them and your shared mission.
- Spread the message through email, newsletters team meetings, message boards, posters, etc.
- Establish a “no fault zone” and let them know this is not a compliance check.
- Explain what you will be talking about; share questions in advance.
- Let them know when you are coming.
- Share results.
- Recognize and reward staff for good work.

Remember: No Surprises!

Approachability

Smile 😊

GENUINE

Be
Yourself!

Get and Stay in the Moment

Building Trust

- Ask open-ended questions
- Listen to concerns and act on them
- Don't make promises that can't be kept
- Round on all shifts
- "Get your hands dirty"

Observation

- Be Present
- Watch how work is actually performed
- View the facility from staff/resident perspective
- Recognize jobs well done
- Look for good ideas to harvest (*not a rote exercise*)

Senior Leadership Rounding **CANNOT** be delegated.

- Critical to establishing culture
- Serves as a model that can cascade to other levels of the organization.

Discussion Question 3

How do you follow up on action items from leadership rounds?

*Unmute or
chat*

Listen and Answer

- **Listen, Learn and Share Information**
- **Listen More Than You Talk**
 - Take up no more than 20% of the talking time
- **Act. Delegate.**
 - Don't feel you have to personally fix every problem that is shared with you.
 - Delegate issues to managers
 - Don't micro-manage the process

Take Action

- **Tell staff what you will do with the information and by what deadline.**
- **Take notes and make sure to follow up on actions.**
- **Recommend using a visual tool to follow up and communicate actions.**
- **Opportunity to review your performance improvement process.**
 - *Do you have good systems in place to delve deeper into identified problems as needed to identify root causes and strong solutions?*

STOPLIGHT REPORT

Easily and visually communicate how ideas and/or concerns gathered during rounding are dealt with.

STOPLIGHT REPORT

Thank you for your input and ideas on improvements that we can make to provide a safe and happy place for our residents and staff.

ACTIONS TAKING PLACE IN RESPONSE TO YOUR IDEAS

	Already Implemented
	Work in Progress
	Can't Happen Right Now & Here's Why

Discussion Question 4

How do you manage criticism and complaints during leadership rounds?

*Unmute or
chat*

Managing Tough Conversations

- Be willing to have the tough conversations.
- Don't assume negative intent.
- Accept criticism and negative feedback with humility.
- You don't have to fix every problem, but you do need to validate concerns.
- Answer questions honestly.
- Don't make promises you can't keep.
- Thank them for sharing.

Segue to Tara

Discussion Question 5

How do you measure the effectiveness of leadership rounds?

*Unmute or
chat*

Rules of Measurement – Basics

- Keep it **SIMPLE**
- Make sure it is **DOABLE**
- Use **MINIMAL RESOURCES**
- Know what the data is telling you **OVER TIME**

Keep to a yes/no format

Small samples rather than all

Person/persons responsible for the design should do the data collection

Process reliability data used to refine the process until 95% reliability is reached

For a process thought to be reliable spot checks need to be made and defects studied

Other ideas

- Surveys (anonymous better)-staff perceptions
- “Good-day/Bad Day” Marbles
- Absentee rates
- Change in targeted QI indicators

Follow with run charts

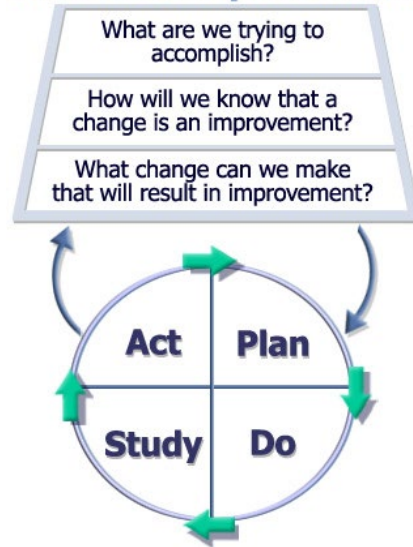

QI Minute: From Rounds to PIPs

**AHRQ ECHO National Nursing
Home COVID-19 Action Network**

Review: The Model for Improvement

Model for Improvement

How do our rounds
inform our PIPs

The Improvement Guide, 2nd Edition, Langley, Moen, Nolan, et.al., Jossey-Bass 2009

Rounds and PIPs

- Choosing a PIP based on what you see and hear
- Using observation to inform changes tested
- Engaging with staff PDSAs and celebrating changes

Tracking What You See and Hear

- Rounds are the perfect time to track themes in what you see and hear
 - What are the most common issues that you observe related to covid-19 response
 - What are the most common 'pebbles in the shoe' of staff
 - What are some ideas that are brought forward by residents and staff that could become a PIP?
- How are you tracking these to bring back to staff at huddles and discuss?
- How are you using this information to inform future PIPs?

Dot Voting

- Simple list of options
- Give everyone a set number of dots
- Allow them to indicate preference
- Review as a group and discuss next steps

Observation and PIPs

Why Observation?

- What actually happens Vs what we think/wish happened
- Be visible and present (combine with inquiry with pts and staff)
- Get others involved
- Focused on learning not judgement

What we're looking for?

- What was unfolding as expected?
- What was a surprise?
- Could you identify any potential improvements?
- What were the reactions to your observation?

Leave in Action: 3 Things To Try This Week

1. Review your current practice re: rounds
 - What's working well?
 - What could be improved?
2. If you don't already, test rounding 2-3 days next week; if you already engage in daily rounds, see if you can add any of the suggestions from today to your process
3. Pick a central process in your home to observe for 10 min; in the next week; see what you can learn for future tests of change

CMS QAPI Leadership rounding guide

QAPI Leadership Rounding Guide

Directions: Leadership rounding is a process where leaders (e.g., administrator, department heads, and nurse managers) are out in the building with staff and residents, talking with them directly about care and services provided in the organization including QAPI initiatives. Rounding with staff and residents is an effective method for leaders to hear firsthand what is going well and what issues need to be addressed within the organization. It serves as an important signal of leadership's commitment to performance improvement, and promotes a culture of QAPI in the organization. Use this to guide your rounds to monitor the progress of QAPI initiatives.

Questions to Consider Before Rounding

1. Which leader(s) will conduct rounds?
2. How frequently will rounds take place?
3. What questions do you want to ask? What do you want to learn? (See sample questions below.)
4. What barriers/issues have already been identified that employees should be asked about in order to gather input on solutions?

Rounding

1. Leaders conduct rounds as planned, maintaining a positive tone, building relationships with staff by taking the time to listen and respond to employees' and residents' needs.
2. Ask questions and document key points. See **optional** rounding form below.
3. When employees raise issues or ask for help, assure them you will follow up.
4. Follow up on previous issues or requests —share with staff how the issues were addressed or resolved.

<https://www.cms.gov/Medicare/Provider-Enrollment-and-Certification/QAPI/Downloads/QAPILeadershipRoundingTool.pdf>

BACKGROUND: *(to be completed prior to rounding)*

TOPIC

____ Specific PIP(s): _____
____ Specific aspect of care (e.g., bathing, medication reconciliation) _____
____ Specific work place or workflow issue _____
____ Other _____

Information needed prior to rounding:

What is your organization trying to achieve?

How will improvement be recognized?

Current data or description of performance:

Improvements made to-date:

BARRIERS/ISSUES ALREADY KNOWN: *(sharing these may be an opportunity to ask for staff input on solutions)*

PREVIOUS BARRIERS/ISSUES THAT HAVE BEEN ADDRESSED BY LEADERSHIP: *(reporting these back to staff shows responsiveness)*

Questions for leaders to ask staff (include any qualitative and quantitative information obtained).

What things are going well around this initiative or this aspect of care or service?
What evidence do you see of success?

Notes:

What is frustrating you with the work around this initiative or this aspect of care or service?
What barriers/issues do you see threatening this initiative or aspect of care or service?
How should they be addressed?

Notes:

What additional resources/tools/equipment are needed?	Notes:
Are there any colleagues who deserve special recognition for their efforts on this initiative or this aspect of care or service?	Notes:
Are there any colleagues who could be helped through coaching/training to make this initiative or aspect of care or service more successful?	Notes:
What feedback, if any, have you heard from residents and families about changes taking place as part of this initiative or this aspect of care or service?	Notes:
What else would you like the leadership to know about this initiative or this aspect of care or service?	Notes:

Leaders –summarize notes from conversations you had with residents or families on this topic:

<https://www.cms.gov/Medicare/Provider-Enrollment-and-Certification/QAPI/Downloads/QAPILeadershipRoundingTool.pdf>

Need A Copy of your Vaccination Records?

Looking for a copy of your vaccine records? It is easier now than ever to request an official copy from the Virginia Department of Health.

Simply head to vaccinate.virginia.gov and scroll down to the "Need a Copy of Your Vaccination Record?" box. From there, enter your information and submit your request. The turnaround time depends highly on the number of requests at any given time, so it is advised to make your request at least a week before your documentation is required.

The graphic features three circular icons at the top: a teal circle with an airplane icon labeled "Traveling?", a pink circle with a family icon labeled "Visiting Family?", and a light blue circle with a briefcase icon labeled "New Job?". Below these icons, the text "Get a copy of your COVID-19 vaccination record" is displayed. Underneath, it says "FIND IT HERE" followed by an arrow pointing to the website vaccinate.virginia.gov. To the right of the website name is a box with the text "Need a copy of your vaccination record?" and a sub-note: "Use the Vaccination Record Request Portal to view and print a record of your COVID-19 vaccinations." Below this, a note states: "Make your request at least a week before needed to assure you receive it on time!" At the bottom, a blue banner contains the text "Questions about your vaccination record?" followed by the email brhealthdistrict@gmail.com and the phone number "434-972-6261". On the right side of the banner are the logos for BRHD (Bristol Regional Health District) and VDH (Virginia Department of Health).
